

COMMITMENT OF MANAGEMENT

GRÁFICAS AGA, S.L., a company dedicated to design, prepress, offset printing, binding, finishing and handling of books, magazines, brochures, POS material and commercial print in general, has made the decision to implement and maintain a Chain of Custody of Forest Based Products management system in accordance with the following documents: Chain of Custody Certification of Forest Based Products - Requirements - Annex 4 from October 2006 and FSC standard for Chain of Custody Certification FSC-STD-40-004 (version 2-0) ES.

GRÁFICAS AGA, S.L. has developed a system that integrates prerequisites which aim to meet the needs and requirements arising from these standards.

Likewise, the management of Gráficas AGA, SL is committed to providing the means and resources necessary to ensure that the guidelines established by the system are distributed to all staff of the company for its knowledge and understanding and implemented to verify its effectiveness. In the same way we will assure that recognition of the system followed by Gráficas AGA S.L. is public knowledge and both customers and suppliers are familiar with our policies in order to understand the aim of the company in all areas.

The management team at Gráficas AGA, SL commits to determine the requirements of the client that requests certified paper and comply with them. Likewise, evidence of compliance of paper requirements from a sustainable management will be required from our suppliers in order to maintain the same level of compliance and quality throughout the process.

In order for this implementation to be effective it requires the participation of all available resources belonging to Gráficas AGA, SL, both human and technical.

The management at Gráficas AGA, SL is responsible for ensuring the functionality and development of the system, which has as its basis the philosophy of continuous improvement obtained through rigorous follow-up of the chain of custody process during all our activities.

In Madrid, December 3, 2008
